Directions:

Step 1 – Apply 2 coats of Polar Bear to the top side of the plate.

Step 2 – Draw a circle in the center of the plate.

Step 3 – Begin with Sweet Pea. Using a messy brush, gently fan some color around the plate from the circle outward. Do the same with Leap Frog, M.A.S.H. and Chocolate Moose. Keep in mind that you want it to be a little darker in the center and lighter on the edges. Taper in each color as you apply them. (Refer to the video on the Gare YouTube channel for the full technique)

Step 4 – Apply the wheat stalks and berries using Fun Writers, Red Rover & Old Yeller.

Step 5 – Dip it into Clear Glaze and fire at cone 06.
